Employee Giving from the Heart

2021 EMPLOYEE GIVING FUNDS

Where Needed Most

At Saint Therese we are driven to provide programs and services that instill a deep sense of purpose, connection and belonging for the seniors in our care. As individual needs change so do our care offerings all while creating opportunities for physical wellness, spiritual connection and social activities. By supporting this fund, your gift will provide the resources to continue to build our communities, programs and services in thoughtful ways and ensures our mission continues touching lives for generations to come.

White Rose Scholarship Fund

The White Rose Scholarship Fund allows employees to begin or continue nursing related certification or degree programs to better serve our seniors. Recipients are awarded an annual average of $4,000. Please donate to support this essential program as we invest in higher quality care for our residents and the future of our direct care team.

Saint Therese at St. Odilia Sustaining Fund

St. Odilia is a special place for those needing end of life services. St. Odilia provides enhanced care through symptom management, pain control, spiritual support and unconditional love in a restful environment that allows our residents comfort in their final days. This holistic end-of-life care approach is priceless to our residents, but requires more staffing than our other locations. The Sustaining Fund at St. Odilia ensures this integral facility at Saint Therese continues to be viable to serve our community.

Ascend Rehabilitation: Educational Scholarships

The Mark Stanfield Memorial Scholarship was established by the family of late employee, Mark Stanfield. The intent of their support is to provide our rehabilitation employees the opportunity to pursue additional education or certifications that have a meaningful impact in their role. Each recipient is awarded $500. Please donate to support this essential program as we invest in our Rehabilitation employees seeking further education or certifications.
